Location: India

PROFESSIONAL SUMMARY

Highly motivated Software Engineering student with hands-on experience in Java, MySQL, MERN stack basics, and machine learning-based projects. Completed multiple industry-recognized internships including Anudip, Edunet Foundation, and Cisco. Strong foundation in software development, data structures, and real-world project implementation. Proven academic performer with strong communication and problem-solving skills. Actively seeking internship or entry-level software development opportunities.

EDUCATION

MIT Academy of Engineering, Pune

Bachelor of Technology (B.Tech) – Software Engineering

2nd Year (3rd Semester)

CGPA: 8+

Expected Graduation: 2028

Smt. S. S. Ajmera High School and Junior College

Higher Secondary Education (11th & 12th)

Academic Topper in 11th and 12th Standards

SKILLS

Technical Skills

- Programming Languages: Java, Python, C++, C
- Web Technologies: HTML, CSS, JavaScript
- Frameworks and Libraries: React.js (Basic), Node.js (Basic), Express.js (Basic)
- Database: MySQL
- Stack Knowledge: MERN Stack (Basic)
- Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Computer Organization and Architecture
- Tools: Git, GitHub, VS Code

Soft Skills

- Problem Solving
 - Communication
 - Team Collaboration
 - Time Management
 - Adaptability and Quick Learning
-

INTERNSHIP EXPERIENCE

Anudip Foundation – Software Development Intern

- Trained in Java programming and MySQL database management
- Developed professional skills including resume building, mock interviews, and email writing
- Gained industry exposure and workplace readiness

Edunet Foundation – Technology Intern

- Developed a Deforestation Detection System focused on Fire Type Classification
- Applied technical concepts to real-world environmental problems
- Improved teamwork, documentation, and project execution skills

Cisco Virtual Internship Program

- Completed structured modules on technology and cybersecurity fundamentals
 - Gained exposure to industry best practices
-

PROJECTS

Deforestation Detection System (Fire Type Classification)

- Machine learning–based system to identify deforestation-related fire types
- Implemented during Edunet Foundation Internship

Department Daily Work Management System (Group Project – Ongoing)

- Developing a centralized system for managing daily departmental tasks
- Working collaboratively on system design and implementation

Basic Chatbot Application

- Built a chatbot with basic conversational logic

OTP Email Verification System

- Implemented secure OTP generation and email verification
-

CERTIFICATIONS & ACHIEVEMENTS

- Anudip Foundation Internship Certificate
 - Edunet Foundation Internship Certificate
 - Cisco Internship Certificate
 - Google Arcade Study Jams
 - 2nd Rank among more than 300+ students from college
 - Certificate expected
 - Multiple online course certificates in Java, Web Development, and DSA
-

COMPETITIONS & ACTIVITIES

Datathon Competition

- Reached final round
